The Technology is likely to have the greatest impact on the future of the world economy has arrived, and it's not self-driving cars, solar energy, or artificial intelligence. It's Called the block chain. Given the promise and peril of such a disruptive technology, Many firms In the financial industry, from bank and insurers to audit and professional service firms, are investing in block chain solutions. What is driving this deluge of money and interest ? Most firms cite opportunities to reduce friction and costs. After all, most financial intermediaries themselves rely on a dizzying, complex, and costly array of intermediaries to run their own operations. Santander, a European bank, put the potential savings at \$20 billion a year Capgemini, a consultancy, estimates that consumers could save up to \$16 billion in banking and insurance fees each year through block chain-based application.

# Forex ( Foreign Exchange)

The traditional way in which entrepreneurs and investors have worked in the internet forex market is different from the currency of one country. It is a huge Network where the currency of the country is traded.

- ✓ Forex market is the most large financial market. Around \$7 trillion is changing every day globally.
- ✓ Which is more than three times the sum of American stocks and the government bond market.
- ✓ Derivational market for more then 20 years.
- ✓ The ftives in the intestinal market add up to \$6 trillion a day.
